PROGRAM ASSOCIATE CANDIDATE • CLIMATE RESERVE (AGCI)

Boulder, CO • open to the Basalt, CO office • katrina@engelsted.co • 774.239.8699 • linkedin.com/in/katrinae

SELECTED OUTCOMES

Geospatial data science

Translating environmental complexity into climate decision-support tools, Upstream AI

3 years

inside federal science infrastructure, National Park Service

10s of millions

of records, multi-stakeholder enterprise engagement, Lytics

SKILLS

Climate & Environmental Regulation

Environmental compliance

Oil & gas regulation

Federal land boundaries

Geospatial risk modeling

Subnational climate adaptation

Research & Strategy

Technical synthesis

Landscape analysis

Briefing memos

Strategic communications

Coalition & Stakeholder Mgmt

Cross-functional coordination

Multi-stakeholder engagement

Donor & partner comms

Operations & Systems

Salesforce

CRM tracking

Project management

Google Workspace

Event & convening logistics

AI & Automation

Claude Code

RAG pipelines

Workflow automation

EDUCATION

BA, Geography (GIS), Honors

Colgate University 2011

Honors thesis: spatial-statistics study using kriging, IDW, and local Moran's I.

MBA

Quantic School of Business and Technology 2021

SUMMARY

Cross-functional generalist with direct experience inside the climate decision-support ecosystem this role sits in. At **Teren**, I worked on **machine-learning models supporting environmental regulatory compliance for oil and gas infrastructure and national park boundary determination** — resolving ambiguous or contested boundary lines with real regulatory and conservation consequences. I spent three years inside the **National Park Service's** own federal science infrastructure, and I currently advise a startup building software for small water utilities — subnational climate-adaptation infrastructure in practice. I've also worked inside an enterprise multi-stakeholder engagement (Lytics), owned a Salesforce CRM (Zayo), and am currently building AI-agent automations as a startup advisor. My roots are in public-service and conservation nonprofits (Humanitarian OpenStreetMap Team, Cadasta, Bonobo Conservation Initiative).

PROFESSIONAL EXPERIENCE

- Founding Technical Advisor** — *Upstream AI* 2026 – Present
 - Advise a startup building software for small drinking-water and wastewater utilities — **subnational climate-adaptation infrastructure**, with all the procurement and regulatory caution that comes with it
 - Build **AI-agent automations** (Claude Code sub-agents, RAG pipelines) for non-technical end users
- Sr. Technical Consultant** — *Lytics* 2022 – 2023
 - Owned a **multi-stakeholder enterprise engagement** (Whirlpool) end-to-end — tens of millions of records translated into a usable identity model across technical and business stakeholders
- Marketing Automation Manager** — *Zayo Group* 2022
 - Owned the **Salesforce CRM stack** end-to-end; built reporting and automation that lifted conversion 15%
- Head of Marketing Technology** — *Teren (formerly Solspec)* 2018 – 2021
 - Worked inside a geospatial-risk company building **ML models from drone and satellite imagery to support environmental regulatory compliance for oil and gas infrastructure and national park boundary lines** — surfacing surface-hydrology, habitat-encroachment, and invasive-species risk on contested or unclear boundaries
 - Partnered cross-functionally across engineering, product, and sales in support of institutional and government-adjacent customers
- Solutions Engineering Manager** — *Homebot* 2015 – 2018
 - Hired, managed, and trained a technical team; translated technical findings for non-technical stakeholders
- Frontend Developer, Digital Maps Team** — *National Park Service* 2012 – 2015
 - Built wildfire-perimeter and endangered-species mapping tools inside **federal science infrastructure**, for non-GIS park staff
 - Cartography work became NPS Park Tiles, the official basemap for park websites
- Early Career — Conservation & Humanitarian Nonprofits** — *HOT OSM, Cadasta, Bonobo Conservation Initiative* College era
 - Humanitarian OpenStreetMap Team (QGIS disaster-response mapping), Cadasta (land and resource-rights registry documentation), Bonobo Conservation Initiative (wildlife conservation)
