

Strategic advisor for an *AI-native SaaS*, MBA, and fifteen years of being the **engine that keeps cross-functional projects moving** — across sales, marketing, creative, and operations. Co-authored a full **wellness van-tourism business plan** in grad school with two other founders from different disciplines. I **get the lifestyle, the customer, and the operations** — and I push projects forward diplomatically but firmly.

★ **WHY NOOVO** I lived in a van for two years exploring the western US, so I believe in Noovo's mission from the inside out. The details matter — where the shoes go, where the trash goes, where the laundry goes. Get those right and the van disappears; you're just *living*. It was the most social chapter of my life because I never had to pack up and plan — I could just say **yes** to friends and family everywhere I went. That's the freedom Noovo is selling, and I've already paid for the ticket.

01 THE FIT

"3–7 yrs project management, ops, or cross-functional coordination "	▶ 15 yrs coordinating across sales, marketing, creative, eng. Owned cross-team wiring at Teren & Zayo. At Upstream, I AM the cross-functional team.
Experience in a startup or fast-paced growth environment	▶ Strategic advisor at Upstream AI today. Early team at Homebot, three years at Teren (seed-stage), van-business co-founder in grad school. Startup pace is my native pace.
Proficiency with Monday.com / Asana / ClickUp / Jira + Google Sheets	▶ Run Upstream's project tracking on GitHub Projects + Notion + Linear. Used Asana, ClickUp, Trello, Jira, Airtable, Smartsheet across past roles. Monday.com onboards in days.
Ability to push projects forward diplomatically but firmly	▶ Walk regulators, operators, investors, and engineers through the same project from four angles. Diplomacy is the job. Firmness is the deliverable.
Build repeatable systems · standardize templates and workflows	▶ Built the lead-scoring system at Zayo (+30% closed). Built the pilot-readiness review workflow at Upstream. Repeatable systems are my favorite deliverable.
Identify risks early , resolve dependencies, escalate without overload	▶ "Here are three blockers, here's what I'm doing about two, I need your input on one." My native update format — built from years of operating and advising in small-team chaos.

2021 · ELEVATED VAN JOURNEYS · CO-FOUNDER (BIZ PLAN)

Wellness van-tourism business plan · MBA capstone

Coordinated three co-founders from three completely different disciplines — a licensed marriage & family therapist, a mechanical engineer who'd converted two vans, and me on product/ops — toward one unified plan. Concept: **turnkey electric-van excursions through national parks with guided audio experiences and community hubs**. Modeled Blue Ocean strategy combining wellness retreats + RV + camping + psychotherapy. Year-3 projection: \$1M+ revenue, 29% net margin. [Read the plan ↗](#)

2024 → NOW · UPSTREAM AI · STRATEGIC ADVISOR

The cross-functional engine of a 2-person startup

Structured the pilot rollout across **2** Colorado utilities (Genesee, Alma). **Lead weekly meetings, set agendas, assign ownership, track action items, escalate blockers, document decisions**. Built the project workflows from scratch — Notion + Linear + GitHub Projects, no PM "tool" tax. [getupstream.ai](#)

2018-21 · TEREN · HEAD OF MARTECH

4x qualified leads, MoM

Coordinated across engineering, product, sales, design to ship aligned campaigns at a seed-stage geospatial startup. The "engine that keeps projects moving" wasn't a metaphor — I was it.

2022 · ZAYO GROUP · MKTG AUTOMATION MGR

Standardized the lead workflow + leadership dashboards

Built repeatable process flows, ownership rules, and **reporting dashboards for sales leadership** — kept executives informed without overloading them with detail. **15%** conv lift, **30%** closed-deal lift.

2015-18 · HOMEBOT · SOLUTIONS ENG MGR

Early team at a PropTech startup

Designed the data schema for messy real-estate ingestion, shipped the email-driven product for agents + lenders, trained beta testers. Watched the company grow up.

2023 → NOW · SUNLIGHT MTN · BUSINESS ANALYST (SIDE)

Multi-phase analytics project for a real small business

Self-managed a long-running engagement for a Glenwood Springs ski/bike shop: scoped phases, set deliverables, documented methodology, shipped reproducible artifacts on [GitHub](#). Working in small-team, small-business chaos is its own discipline.

2012-15 · NATIONAL PARK SERVICE · FRONTEND DEV

Maps used by millions of park visitors

Cartography that became [NPS Park Tiles](#), the official basemap. **20%** traffic lift, **90%** error reduction.
