

Katrina Engelsted

PRINCIPAL, CUSTOMER SUCCESS CANDIDATE • JUPITER INTELLIGENCE

Boulder, CO • engelsted.co/jupiter.html • katrina@engelsted.co • 774.239.8699 • linkedin.com/in/katrinae

SELECTED OUTCOMES

10s of millions

records unified into a single identity model — Whirlpool engagement, Lytics

+15%

lead conversion lift from Salesforce lead-scoring & automation — Zayo Group

Millions

of park visitors used mapping tools I helped build — NPS Park Tiles

SKILLS

Geospatial & Climate

- ArcGIS
- QGIS
- Mapbox
- Carto
- Kriging
- Local Moran's I
- Remote sensing

CRM & Analytics

- Salesforce
- Einstein
- Marketing Cloud
- Tableau
- SQL
- Python
- R
- Snowflake

Customer & Account

- Enterprise delivery
- Onboarding
- Renewal risk
- Stakeholder mapping
- QBR reporting

EDUCATION

BA, Geography (GIS), Honors

Colgate University **2011**
Honors thesis: 180-page spatial-statistics study of 1,650 WWOOF host farms — regression, kriging, local Moran's I.

MBA

Quantic School of Business and Technology **2021**

Data Science / ML Certificate

Springboard **2024**
Capstone: R + Snowflake AMI Program Implementation Assessment for a Colorado water utility.

SUMMARY

Geographer and customer-facing technical consultant with 15 years of experience working at the intersection of technology, data, and real-world problems. My background includes a BA in Geography (GIS), Honors, with a thesis in spatial statistics; disaster-response mapping with the Humanitarian OpenStreetMap Team; three years building wildfire and endangered-species maps for the National Park Service; and three years at Teren, a geospatial-risk company, using machine learning and drone imagery to assess oil and gas wells, pipeline rights-of-way, and other infrastructure for risks including surface hydrology, encroachment, and noxious weeds. On the customer side, I've led enterprise technical engagements at Lytics, trained customers and translated complex data for non-technical audiences at Homebot, and managed Salesforce and marketing technology at Zayo. While my titles haven't always said "Customer Success," that's been a core part of my work throughout my career.

PROFESSIONAL EXPERIENCE

- **Founding Technical Advisor** — *Upstream AI* **2026 – Present**

- Advise a startup building software for small drinking-water and wastewater utilities — institutional customers with the same procurement rhythm and regulatory caution as Jupiter's buyers
- **Business Analyst** — *Sunlight Ski & Bike* **2025 – May 2025**

- Cleaned and standardized thousands of inconsistent customer and product records to support reporting and purchasing decisions
- **Sr. Technical Consultant** — *Lytics* **2022 – 2023**

- Owned an **enterprise customer engagement (Whirlpool) end-to-end** — translated a relational SQL stack into a graph identity model at scale, tens of millions of records
 - Served as the single point of contact from data through delivery
- **Marketing Automation Manager** — *Zayo Group* **2022**

- Owned the **Salesforce marketing stack** (Einstein, Marketing Cloud) end-to-end
 - Built lead-scoring and automation models that **lifted conversion 15%**
- **Head of Marketing Technology** — *Teren (formerly Solspec)* **2018 – 2021**

- Worked inside a **geospatial-risk startup** building ML layers from drone imagery to flag surface hydrology, encroachments, and noxious weeds on utility rights-of-way
 - Partnered cross-functionally across engineering, product, and sales; supported institutional customer acquisition
- **Solutions Engineering Manager** — *Homebot* **2015 – 2018**

- Trained beta cohorts and translated technical findings for a **mortgage/lending** (financial-services-adjacent) customer base
 - Designed the data schema behind a messy real-estate dataset; hired and managed the Solutions Engineering team
- **Frontend Developer, Digital Maps Team** — *National Park Service* **2012 – 2015**

- Built **wildfire-perimeter and endangered-species mapping** tools on ArcGIS, Mapbox, and Carto for non-GIS park staff
 - Cartography work became NPS Park Tiles, the official basemap for park websites
- **Mapping Intern** — *Humanitarian OpenStreetMap Team* **College era**

- Mapped in **QGIS** for disaster-response and humanitarian relief efforts
