

Founder + operator + accelerator participant. Currently co-founding **Upstream AI** (two live Colorado pilots), going through **Startup Colorado's Founder Cooperative + Growth Accelerator** right now — so I know the founder-in-an-accelerator experience from the inside. Plus fifteen years of program and operations leadership: **Solutions Engineering Mgr at Homebot** (early team, through the raise + acquisition), **Head of Marketing Technology at Teren** (seed-stage geospatial, 4x MQLs MoM), **Sr. Technical Consultant at Lytics**, **Marketing Automation Mgr at Zayo** (+30% closed-won). PMBIA-certified MTB coach running seasonal women's clinic programs — closest analog to managing a seasonal Associate team. Boulder local; **10 minutes from Foundry**.

01 THE FIT — JD LINE BY LINE

3-5+ years in fast-paced environments with event planning, business operations, project management	STRONG 15 years across startups. Program + event ops at Homebot, Teren, Zayo. Plus current MTB coaching seasons (recruiting, scheduling, on-site logistics) and Sunlight Mountain shop business-model redesign. Comfortably exceeds the 3-5 floor.
Recruit, hire, train, and manage the seasonal Associate team	MATCH Solutions Engineering Manager at Homebot (early team, hired + managed SE team). Cross-functional lead at Teren. Seasonal program management every summer/fall through MTB coaching (recruiting riders, coordinating assistants, on-site delivery).
Founder ecosystem familiarity (early-stage venture-backed)	STRONG Currently a co-founder at Upstream AI . Plus early-team experience at three other startups (Homebot, Teren, Upstream). I'm in the founder ecosystem this minute, not as a memory.
Systems thinker · "eye for things that don't scale" · process design across programs	STRONG Default operating mode. Built lead-scoring + automation at Zayo from a blank Salesforce. Built mar-tech stack at Teren from zero. Built Claude-Code sub-agent workflows at Upstream. Process design is the favorite deliverable.
Anticipate multiple stakeholders , work in ambiguity with high expectations, attention to detail	STRONG Cross-functional posture across every startup role. Ambiguous-requirements → prioritized backlogs is the native operating mode. Diplomatic but firm — the temperament the role calls for.
Excel/Sheets, Docs, Slides (plus) · Airtable, Zapier, automation (plus)	STRONG All of the above, daily. Plus Notion, Linear, Make, n8n, Retool. Build the workflow once, automate it the second time, document it for the next PM.
Communication, emotional intelligence, active listening, empathy	STRONG 15 years of cross-functional work plus seasonal coaching means I've been practicing high-EQ stakeholder management for a long time. References on request.
Direct accelerator-program experience	MATCH Upstream is currently in Startup Colorado's Founder Cooperative + Growth Accelerator . I've sat in the founder seat through cohort programming, mentor matching, milestone reviews, and demo events — the structural shape Techstars runs.
Investment / VC / venture-cycle exposure (as time permits)	MATCH Watched the full venture cycle from inside at Homebot — fundraise + acquisition . Saw the pitch process, due-diligence rhythm, and close at close range. Operator-first lens on investment evaluation; would grow the formal-investing muscle under MD supervision.

02 SHIP LOG — PROGRAMS, OPERATIONS, FOUNDER EXPERIENCE

2024 → NOW · UPSTREAM AI · FOUNDDING TECHNICAL ADVISOR · BOULDER, CO

Currently co-founding an early-stage startup — *I'm one of the people Techstars exists to support*
Two live Colorado pilots, pre-revenue. Founder operating workload: pilot recruitment, conference outreach, calendar mgmt for operator meetings, weekly investor-style updates, vendor + tool selection, hiring conversations. **I know what a Techstars founder needs from their PM because I'd want it from mine.** Role is part-time, structured to step back to advisory for the right full-time seat.

2024 → NOW · MTB COACHING · SEASONAL PROGRAM LEADERSHIP

PMBIA-certified · recurring women's clinics

Women's clinics 3x/month at Roaring Fork Cycling. BMA women's intermediate at Valmont. VNTR Birds clinics in Grand Junction.

Closest analog to managing the seasonal Associate team — recruiting riders + assistants, scheduling, venue + logistics, curriculum.

2023 → NOW · SUNLIGHT MTN SKI + BIKE · GLENWOOD SPRINGS

Business model redesign · events + community ops

Helped a beloved local shop pivot toward service revenue + community programming. Ran women's mechanic clinics (bike fit, cockpit, flats, suspension). Event planning + recruiting + curriculum design — the program-ops loop in miniature.

2015 — 18 · HOMEBOT · SOLUTIONS ENGINEERING MGR

Early team · through the raise + acquisition

Hired + managed the SE team. Trained beta cohorts (same shape as onboarding accelerator founders). **Watched the full venture cycle from inside** — fundraise, pitch process, due-diligence rhythm, and acquisition close. People management + program delivery + venture-cycle exposure from day one.

2018 — 21 · TERENCE · HEAD OF MARKETING TECHNOLOGY

Seed-stage geospatial · cross-functional program lead

3 yrs at a geospatial-intelligence startup. Owned web, attribution, campaigns, vendor coordination. **4x MQLs MoM**. The cross-functional posture (eng, product, sales) this Techstars role requires.

2022 · ZAYO GROUP · MARKETING AUTOMATION MGR

Process design · automation · +30% closed-won

Built lead-scoring flows + dashboards from a blank Salesforce instance. **+15% lead-to-MQL, +30% closed-won**. The system-design + cross-team coordination instinct this role rewards.

2022 — 23 · LYRICS · SR. TECHNICAL CONSULTANT

Enterprise CDP · client + vendor management

Got enterprise clients live on a CDP. Managed implementation partners + internal team coordination. **Stakeholder management at scale** — translating ambiguous business needs into a shipped product.

03 TOOLKIT

Daily-use

Working knowledge

Airtable · Notion · Linear · Asana

Zapier · Make · n8n · Retool

Google Workspace · MS Office

Slack · Loom · Zoom

Salesforce · HubSpot · Marketo

Claude Code · OpenAI · RAG pipelines

Python · SQL · TypeScript · R

Supabase · Postgres · BigQuery · Snowflake

Mapbox · Carto · QGIS · ArcGIS

Git · GitHub · CI/CD

04 RECEIPTS — WHY THIS IS A REAL FIT

- ♦ **Founder + accelerator participant right now.** Upstream is currently in **Startup Colorado's Founder Cooperative + Growth Accelerator**. **I'm on the receiving end of a Techstars-shape program this minute.**
- ♦ **Venture-cycle exposure.** At Homebot through the fundraise + acquisition cycle — pitch process, due diligence, close. Operator-first lens on investment evaluation; would grow the formal-investing muscle under MD supervision.
- ♦ **People + program management.** Solutions Engineering Manager at Homebot (early team). Head of MarTech at Teren. PMBIA-certified seasonal-program management on the coaching side. Comfortable hiring, training, and leading.
- ♦ **Boulder local.** 10 minutes from your office. Raising a kid here. Not job-hopping to a remote role in 18 months — invested in the local community.
- ♦ **Automation-minded.** Airtable, Zapier, Notion, Claude Code daily. The systems-thinker / "do not let it be manual" instinct the JD names.

05 EDUCATION

BA, Geographic Info Science · Honors

COLGATE · 2011

Honors thesis. Geographer brain — translates between worlds.

MBA

QUANTIC · 2021

Strategy + finance + ops grounding for the platform / program-management seat.

ML/Data Sci · Galvanize Full-Stack

SPRINGBOARD · 2024 · GALVANIZE · 2014

Python-first analytics + the engineering bootcamp behind every "ships code" claim.
