

Solutions engineer who specialized into marketing — and builds with AI daily. Fifteen years across marketing operations, growth, and solutions engineering, plus founding-advisor work at an AI-native startup where my actual job is **Claude-powered workflow design**. Track record: **+30% closed-won at Zayo, 4× MQLs at Teren, CDP delivery at Lytics, lifecycle product at Homebot**. Family travel through Tanzania, Bali, Costa Rica, Patagonia, Denmark, France, Germany, Spain; years living in Haiti, India, Philippines, Indonesia. **I understand both the joys and pains of travel** — and I'm thirty minutes from your Denver HQ.

01 THE FIT — JD LINE BY LINE

"2–5 yrs mar-ops / growth / digital marketing"	▶ STRONG 15 yrs across mar-ops, growth, solutions eng. Zayo (mar-auto), Teren (head of mar-tech), Lytics (CDP), Homebot (sol-eng + lifecycle). 2-5 floor cleared.
Strong interest in AI tools + how they improve marketing workflows	▶ STRONG Founding advisor at an AI startup. Claude Code, Claude API, RAG, sub-agents, versioned prompt libraries daily. I don't have "interest" — I have a working practice.
Experience w/ ChatGPT, Claude , similar platforms	▶ STRONG Claude (Code + API) daily. ChatGPT / GPT-4o regularly. Figma AI, image-gen (DALL-E, Midjourney, Nano Banana / Imagen). Voyage + OpenAI embeddings in production.
Build + maintain AI-assisted workflows , prompt libraries, repeatable systems	▶ STRONG My current job. Versioned prompt library, sub-agent suite, README-first eng. I'd ship a starter prompt-library structure for ER in week one.
Marketing systems — campaign exec, reporting, segmentation , collaboration	▶ STRONG HubSpot, Pardot, Marketo, Klaviyo, mParticle, Salesforce, Customer.io. Built attribution + segments at Teren and Lytics. Native habitat.
Partner w/ brand, creative, CRM, growth, analytics	▶ STRONG "Engine that keeps cross-functional projects moving" for 15 yrs. Lived between eng / product / sales / design at Teren. AM the cross-functional team at Upstream.
Training, docs, hands-on support for AI adoption	▶ STRONG Trained pilot operators at Upstream. Co-authored LearnOSM (HOT OSM training, 23+ languages). Comfortable in a room + inside a doc.
Reporting + dashboards · marketing performance analysis	▶ STRONG NPS dashboards, Teren attribution, Lytics segment reports, Upstream Supabase + Recharts. MTech in Data Science (Springboard 2024) refreshed the toolkit.
No-code/low-code, CRM/lifecycle, APIs, luxury/travel/ lifestyle (nice-to-have)	▶ STRONG Zapier, Make, n8n, Retool. Full lifecycle stack experience. Production APIs (Anthropic, OpenAI, Supabase). MBA capstone = wellness-travel biz plan; PMBIA MTB coach; NPS alum.

02 SHIP LOG — AI WORKFLOWS + MARKETING OPS

2024 — NOW · UPSTREAM AI · FOUNDING TECHNICAL ADVISOR (PART-TIME) · BOULDER, CO

AI-native ops · Claude Code sub-agents · prompt libraries · automation

Founding technical advisor at an early-stage AI platform. Built and maintain a stack of **Claude Code sub-agents** (doc-repo-tester, daily-report-builder, pilot-readiness-reviewer), a **versioned prompt library**, RAG pipelines, and README-first internal playbooks. **Pre-revenue side project — would step back to advisory for the right full-time role**. Two live pilots. Direct daily practice of AI-assisted workflow design, exactly the toolkit ER is hiring for.

2022 · ZAYO GROUP · MKTG AUTOMATION MGR

Lead scoring → +30% closed deals

Built lead-scoring process flows, profile grading, lifecycle stages, dashboards. Made the system legible to sales leadership w/o overloading them. **+15% lead-to-MQL, +30% closed-won, 500 leads from one co-built webinar series**.

2018 — 21 · TEREN · HEAD OF MARKETING TECHNOLOGY

Full GTM stack → 4× qualified leads

Owned web, landing pages, gated content, attribution, persona-driven funnels at a seed-stage geospatial startup. Worked w/ eng + product on sales enablement engineers actually used. **10% lift from segmented landing pages alone**.

2022 — 23 • LYTICS • SR. TECHNICAL CONSULTANT

Enterprise *customer data platform*

Got enterprise clients live on a CDP — translating "we want to know our customers" into SQL queries, segments, audiences, pipelines that shipped. **The literal CRM + lifecycle + segmentation work the JD calls nice-to-have.**

2015 — 18 • HOMEBOT • SOLUTIONS ENGINEERING MGR

Early team • *lifecycle email product*

Designed data schema for messy real-estate ingestion. Shipped the email-driven product for agents + lenders. Trained beta cohort. Built dashboards that made mortgage finance legible. **Lifecycle marketing at scale, before "lifecycle" was a buzzword.**

2021 • MBA CAPSTONE • QUANTIC

Elevated Van Journeys • **wellness travel biz plan**

Co-authored 37-pg business plan for wellness travel co. — curated national-park routes, electric vans, guided audio, community hubs. Market sizing, Blue Ocean positioning, financials. **Year-3 model: \$1M revenue, 29% net margin.** Lifestyle/travel/hospitality fluency on the record.

2012 — 15 • NATIONAL PARK SERVICE • FRONTEND / GIS

Cartography behind *NPS Park Tiles*

3 yrs of GIS + cartography. My cartography became part of **NPS Park Tiles**, the official basemap behind park websites used by millions of trip-planners. Same destinations your members visit, same itinerary mindset.

03 TOOLKIT

Daily-use AI

Marketing ops

Code • data • infra

Claude Code • API

ChatGPT / GPT-4o

Prompt libraries

Sub-agents • RAG

Figma AI

Image-gen (DALL-E • Midjourney • Nano Banana)

HubSpot • Pardot • Marketo

Klaviyo • Customer.io

Salesforce • Lytics CDP

Zapier • Make • n8n • Retool

Python • SQL • TypeScript

Supabase • Postgres • BigQuery

Notion • Linear • GitHub • Asana

Tableau • Power BI • Looker

04 RECEIPTS — WHAT MAKES THIS A REAL FIT

- ♦ **AI by day job.** Two years building Claude Code sub-agent workflows, prompt libraries, and RAG pipelines as founding technical advisor at Upstream AI. **The toolkit ER is hiring for is the one I already use.**
- ♦ **Marketing ops by deep stripe.** Zayo, Teren, Lytics, Homebot. % lifts to point at. Stacks I can name in my sleep — HubSpot, Pardot, Marketo, Klaviyo, Customer.io, Lytics CDP, Salesforce.
- ♦ **Travel + luxury by upbringing.** Family travel through **Tanzania, Bali, Costa Rica, Patagonia, Denmark, France, Germany, Spain** as a kid. Multiple years **living abroad** in Haiti, India, Philippines, Indonesia on development + research work. **I understand both the joys and pains of travel** — luxury suites and 2am delayed-bag layovers both.
- ♦ **Lifestyle by recent work.** MBA capstone = wellness-travel biz plan. PMBIA-certified MTB coach. Annual US/CAN destination biking. NPS alum (cartography behind Park Tiles, the basemap behind millions of trip-plans).
- ♦ **Local + available.** 30 min from your Denver HQ. Full-time available now (Upstream role is structured to step back to advisory). Genuinely interested in ER specifically, not just AI mar-ops in general.

05 EDUCATION

MTech, Data Science

SPRINGBOARD • 2024

RStudio + Python + statistical modeling — refreshed the analytics toolkit alongside the AI work.

MBA

QUANTIC • 2021

Capstone: *Elevated Van Journeys* wellness-travel business plan.

BA, GIS • *Honors*

COLGATE • 2011

Honors thesis in spatial statistics. NPS cartography career started here.

Full-Stack Web Dev

GALVANIZE • 2014

Immersive program. The engineering muscle behind every "marketer who ships code" claim.
